# L O CATION MATTERS: <br> <br> Where is your data center lab? 

 <br> <br> Where is your data center lab?}
-4\% of respondents are missing opportunities
to save money and resources by managing their own labs and overpaying for rent and power.

Data center lab spaces are often an afterthought. Have you considered the location of yours, and its impact on power usage, rental costs and utilization of resources?

## OFFICESPACE GIN

Housing data center labs within commercial offices is an inefficient use of space and money. Most commercial office space lacks HVAC that can handle heavy loads as data center footprints grow
$62 \%$ are housing R\&D infrastructure are housing R\&D infrastruc
within commercial space within commercial space

$49 \%$ are paying retail power rates ( $\$ 0.15 \mathrm{~kW} / \mathrm{h}$ average)$4.0 \%$ struggle with the cost of lab

## WITHIN CORE IT INFRASTRUCTURE <br> 5 

## There is industry-wide

 confusion regarding what level of redundancy is needed to run an R\&D lab versus crifical infrastructureEnergy costs account for up to
$50 \%$ of running IT infrastructureCritical IT infrastructure runs on 2 N (fully redundant) power, while data center labs can run effectively on an $\mathbf{N}$ configuration

$42 \%$ of respondents cile upime and reliability as highest priority for data center labs, despite not being mission critical infrastructure

## WHOLESALE PROVIDER <br> 蔄

Wholesale provides more competitive power rates and efficient configurations within a purpose-built, off-site space with managed services optionsWholesale power rate: \$0.096 $\mathrm{kW} / \mathrm{h}$ average $\% 4 \%$ of respondents manage their data center labs in-house, meaning access is critica$40 \%$ of respondents dont have the time or resources to manage their own data centers
(i.) Flexibility: Run 2 N end N configurations in the same space

## While it may present

 a cost-effective option for some needs, cloud limits options regarding security, accessibility and flexibility$46 \%$ are satisfied with current level of accessibility to their IT equipment
(11i) $49 \%$ cite flexibility as an important factor
