MILAN DATA CENTER CAMPUS OVERVIEW
Data Center Excellence in the Design World’s Leading City

FEATURES
• 30-acre (12 hectares) campus
• 64MW of critical IT load in one, two-story facility
• 517,000 SF (48,000 M²) of leasable data center space
• 204W/SF (3.2kW/M²) average density
• Class A building amenities including office, conference rooms, break rooms and more

AMENITIES
• Dedicated offices and workspaces customizable to your needs
• Multiple conference rooms and meeting spaces throughout the campus
• Secure storage with easy access between data modules
• EV charging stations for cars and bikes
• Easy access to the Malpensa International Airport

POWER
• Dedicated substation onsite
• Power provided by Enel and Terna, the leading energy providers in the region
• Multiple, diverse power feeds supporting the campus
• 400V electrical configuration
• All systems 100% concurrently maintainable

COOLING
• N+1 overall, N+2 component-level redundancy across mechanical systems
• Computer Room Air Handling (CRAH) units located in two galleries on opposite sides of each data module allow for highly efficient airflow distribution
• Closed-loop chilled water system with air-side economizers
• Water Utilization Efficiency (WUE) is near zero (liters/kW/hr) using the latest cooling design

CONNECTIVITY
• Two meet-me-rooms (MMRs) allow for diverse paths and multiple connectivity options
• Three points-of-entry (POEs) for the campus, ensuring maximum path diversity for inbound carriers

SECURITY
• On-site security operations center with patrols 24x7x365
• K4-rated fencing around the perimeter with impact protection
• CCTV on all access control points throughout the entire campus
• Dual authentication for customer and critical infrastructure areas
• Visitor Management System with controlled and monitored access points and stringent access control policy
