

SANTA CLARA III DATA CENTER OVERVIEW

Expanding in Silicon Valley with our third site to meet customer demand.

FEATURES

- 8-acre site
- 64MW of critical IT capacity
- One data center
- 486,000 SF
- 300W/SF average density
- Class A building amenities including office, conference rooms, break rooms and more

SPECIFICATIONS

POWER	64MW of IT capacity
POWER DENSITY	Up to 300W/SF
SQUARE FEET	486,000 SF

AMENITIES

- Customizable offices and workspaces dedicated to individual customers
- Secure storage with easy access between data modules
- Multiple conference rooms and meeting spaces
- Electric vehicle charging stations
- Near the Norman Y. Mineta San Jose International Airport

POWER

- Power provided by Silicon Valley Power, the leading energy provider in the region, using 100% renewable energy
- Multiple, diverse power feeds
- 400V electrical configuration
- Substation on site

COOLING

- Computer Room Air Handling (CRAH) units located in two galleries on opposite sides of each data module allow for highly efficient airflow distribution
- Closed-loop chilled water system with air-side economizers
- N+2 redundancy across all mechanical systems
- Water Utilization Efficiency (WUE) is near zero (liters/kW/hr) using the latest cooling design

CONNECTIVITY

- All major fiber-based service providers operating within a few miles
- Two Meet-Me-Rooms (MMRs) allowing for diverse paths and multiple connectivity options
- Four points-of-entry (POEs) ensuring maximum path diversity for inbound carriers
- Diverse fiber pathways into the facility (minimum 2 paths per carrier)

SECURITY

- On-site security operations center with patrols 24x7x365
- Perimeter security gates and fencing
- CCTV on all access control points
- Dual authentication (access badge/PIN and biometric readers) for customer and critical infrastructure areas
- Visitor management system and badging to control and track onsite personnel all the time
