

# FACTSHEET

Vantage Data Centers is a global leader in digital infrastructure serving the world's most influential AI and cloud providers. With operations spanning North America, EMEA and Asia Pacific, Vantage delivers capacity at unrivaled speed and scale, driven by a relentless commitment to operational excellence and customer success. The company is backed by a consortium of marquee investors and continues to aggressively pursue opportunities in key global markets where its customers are looking to expand.

## The Vantage Difference

Vantage has created an environment where it innovates, iterates and automates in the relentless pursuit of improvement. Operating on a campus model (64 to 1GW+) with large facilities that it builds in phases, Vantage can accelerate time-to-market to meet changing customer demand, typically delivering white space in six months. The company uses standardized, flexible designs focused on energy efficiency and sustainability to provide consistency and high performance for customers in any market. Vantage does this with a commitment to operational excellence, transparency and world-class customer service, proven with a churn rate of ~1% per annum since its inception. In addition to these robust customer commitments, Vantage has pledged to achieve net zero carbon emissions globally by 2030.

## At-A-Glance
